THREE LOOP LENGTHS TO ACCOMMODATE JOB REQUIREMENTS

2"-12"

8"-18"

14"-24"

QUICK RELEASE MAGNETIC BALL HEAD ASSEMBLY ENABLES USER TO EASILY ATTACH AND DETACH CABLE

Sometimes the position or shape of a piece of equipment makes it difficult to securely maneuver it. The SnareIt™ hand safety tool enables users to quickly tighten or loosen a cable around an item to move, set, or place it. It serves as an extension of a user's body enabling safe distancing while maintaining ergonomically correct control. Visit our website for complete tool information.
