

# The Proper Way

TO KEEP YOUR

# HANDS OFF IT™

WHEN USING A **GRATEIT™**

The GrateIt™ No-Touch Hand Safety Tool helps users avoid injuries when lifting, carrying, or moving grating. It also improves ergonomics by reducing the need for users to bend and overreach. Serving as an extension of the user's body, the tool locks onto the grating for secure and controlled maneuvering.

## USE THE GRATEIT HAND SAFETY TOOL TO:

Solo or team lift a piece of grating up to 50 lbs

Solo or team carry a piece of grating up to 50 lbs

Solo or team raise/lower a piece of grating up to 50 lbs per tool

Solo or team drag/move a piece of grating up to 50lbs

## How to Use

**Step 1:** Slide the trigger housing away from T Hook. Make sure there is enough space to clear the grating.

**Step 2:** Insert T Hook through two grating bars.

**Step 3:** Turn the T Hook 90 degrees and ensure two bearing bars are on the inside of the tines of the T Hook.

**Step 4:** Slide the trigger housing down utilizing either your hand or foot until it is secure against the grating.

**Step 5:** Once the tool is secure against the grating, you may lift, lower, raise, carry or drag it up to 50lbs per tool.

**Step 3:** To release the tool from the grating, press the trigger and slide the trigger housing away from the grating. Twist the T hook and remove the tool from the grating bars.
